Remiss Underrättelse från Polen i enlighet med ECE-konventionen om MKBer i ett gränsöverskridande sammanhang, gällande kärnkraftverk i norra Polen

Ert ärendenummer: NV-08364-15

Administrative Board of Kalmar County has been given the title of referrals for comments.

The County Administrative Board has studied the paper work, including attachments, and has no objections regarding the proposed focus and scope of the environmental impact statement, with respect to the description of the cross-border implications. The County Administrative Board, however, emphasizes the importance of carefully describing site-specific risks regarding a new nuclear plant and climate changes such as rising sea levels, flooding etc., for the different locations that will be presented in the environmental impact statement.

A decision on this opinion has been taken by the Head of Department Eva Brynolf after a presentation of the environmental director Tommy Hammar. In the final preparation of the case has also been participated the Head of environmental unit Åsa Axheden.

Handlingen är fastställd i Länsstyrelsens elektroniska dokument- och ärendehanteringssystem.
