Remissvar: Danmarks förslag till Natura 2000- planer (2022 – 2027) och den strategiska miljöbedömningen, NV-08052-21

The Swedish Institute for the Marine Environment (SIME) acknowledges the receipt of all the information regarding the Dnr: NV-08052-21.

The proposed strategy by Denmark regarding the Natura 2000-planer (2022-2027) for the designated areas provide an increased protection network that will promote nature and habitats conservation/restoration/protection, and enhance a positive cross-border impact

SIME is a collaboration between five universities: University of Gothenburg, Linnaeus University, Stockholm University, Umeå University and Swedish University of Agricultural Sciences.

Yours sincerely,

Kajsa Tönnesson and Andrea Belgrano
