

Multiple roles:

- Course designers—drawing upon theory and previous research.
- Outdoor educators—pilot testing the course material.
- Researchers—investigating the hypothesis that friluftsliv educational programming may be able to support environmental knowledge, capacity, concern and engagement, and through this, increase the likelihood for pro-environmental behavioral change.

Theory as base

 Adapt the training to participants level in terms of skills and experience

 Present a wide range of activities and exercises

Tillsammans förverkligar vi paddlingsdrömmar

Välkommen till Svenska Kanotförbundet – vi erbjuder paddlingsglädje genom hela livet. Här sker fysisk och psykisk utveckling i balans med återhämtning oavsett drömmar och mål – från friluftsliv och motion till träning och tävling. Välmående medlemmar och natur är en förutsättning för vår verksamhet och vi verkar för en trygg och säker miljö, både i mötet mellan människor och på vattnet.
